# Hi!

If you've downloaded this document then I'm hoping you'd like to hear a bit about what I provide all my brides, which will hopefully help you decide to take the next step and book me.

## Experience is key....

- Finding an artist who's remained within the industry for longer than ten years isn't always that easy. With over twenty five years experience I have really honed my skills and my unique natural style isn't always that easy to find.
- It's also the experience I have with people. Being able to read people is a key part of this job. Drawing out the right information so I can create a unique look for each bride is a skill.

# Calm and Friendly...

I'm one of the first people you're going to see on the morning of your wedding. So it's really important you feel comfortable and relaxed with me. How your morning goes, sets up the rest of your day. Relaxed, happy artists bring a great vibe to the room, allowing you to take in all the finer details and just enjoy!!!

- After your trial I'll ask you for pictures of all the members of the bridal party and ask for inspiration images of how they would like their hair and makeup. This helps me tailor make a schedule that fits with you and your girls. Your happiness is one of my top priorities so anything I can do to support you on the run up, just ask.

## How do I create that vibe....

- A timed schedule helps everyone keep on track. This helps me create the relaxed vibe that I'm known for. Plus I can be creative in a relaxed environment and have the time to create your dream look.
- You'll also receive a document that details what we need, space, table and lighting wise, plus some other helpful tips that all attribute to a lovely wedding morning. If there's plenty of tea and coffee and great tunes, then even better!!!

# Your trial and what it involves...

This is a three hour appointment which gives us time to discuss the style of your wedding, the colour scheme, dress and to also look at inspiration imagery.

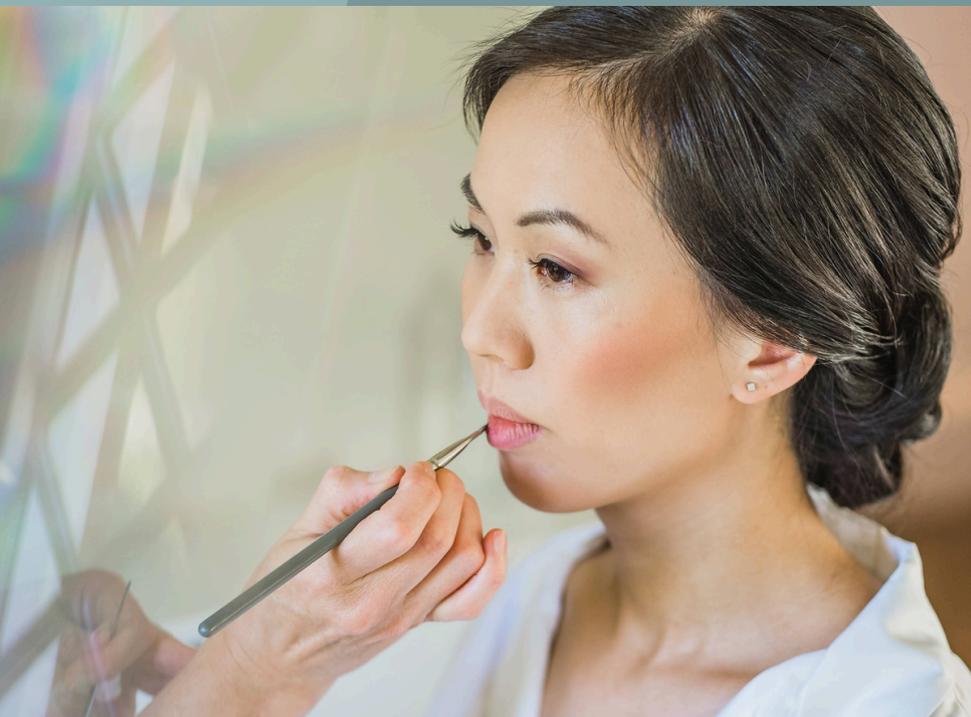

Whilst I look at this imagery carefully, I do also have an in depth discussion about how you wear your own makeup and if there is anything within your routine I should add to the look, to make you feel like "you". This is such a key part of creating a natural makeup, because when you look in the mirror you see your preferred colours and details, they are just elevated.

# Timing is everything...

- A timed schedule helps everyone keep on track. This helps me create the relaxed vibe that I'm known for. Plus I can be creative in a relaxed environment and have the time to create your dream look.

- You'll also receive a document that details what we need, space, table and lighting wise plus some other helpful tips that all attribute to a lovely wedding morning. If there's plenty of tea and coffee and great tunes then even better!!!

# Professional or diy....?

It's very easy and sometimes driven by budget, which is understandable, to think that you can do your own makeup - why not? You might ask yourself - how hard can it be? There are so many reasons why you should book a professional

- I provide way more than just makeup and hair on the day. Right from the time you book I will send you out helpful information on how to up your skincare regime and get it in tip top condition for your trial.

- Nerves are a huge consideration when doing your own makeup. One slip and your mascara can be everywhere. If you think you might ask your friend to do it, then ask yourself do they have the experience to keep to time and not let their own nerves get the better of them? I do this day in day out and I'm prepared for anything.
- I'm constantly updating my kit with products that I feel will give you the best finish and that are long lasting.
- I'm trained in creating a look that is not only the best version of you, but will look incredible in your photos. That kind of knowledge only comes with professional training and masses of experience

# WHAT NOW?

I do hope that having looked through this document you know that I would be honoured to be a part of your day. Working with a bride is such a privilege and I would love to be able to bring you my expertise, adaptability and calm nature to your wedding morning.
